Subject: A few more ideas and changes

Joe,

Attached is another version of the talking points for you. We tightened it up some and added a few more ideas. It still fits on two pages.

Again, all our changes are in red. New changes to this version are in italics... old changes are not in italics.

Trevor.

[REPRO\with\N\conf\ents.doc]

 Obtained and made public by the Natural Resources Defense Council, March/April 2002
There was a reference to the NEP recommendation that DOE develop legislation that would "enhance reliability," among other goals.

Subject: "Energy Legislative Agenda"

...Press accounts say the White House sent an "Energy Legislative Agenda" to the Hill last Thursday. What did this agenda say about reliability legislation?
Thanks.
dave

PS - I may not have anything to you on ideas for how to approach a "national grid study" until early next week. We had to do a little scrambling to respond to Mr. Delays's request to address a draft electricity restructuring bill, as well as a couple of other crash items. FYI, the Reliability Legislation Coalition is meeting today (July 3, 1-4 pm in CEA offices) to discuss what can be done to bring others on board in support of the consensus reliability legislation that is already supported by 14 industry and state organizations. You're welcome to attend.

Joe,

As per our conversation, I have highlighted specific programs and proposals from the National Energy Policy that would be of interest to State and Local governments.

I would appreciate your taking a moment to review the attached material and provide me with your thoughts or comments.

I may play with the format a bit - but expect to leave the content alone except for your input or recommendations.

Thank you in advance for your help,

Matt Koch
