Margot/Joe,
Here's the new draft of Chapter 9. Wanted to get it to you ahead of the rest of the crew, since I'm requesting energy info from DOE.
Look for brackets to identify places where I've identified needs for info.
Thanks a million.
—Michelle

Charlie, since I didn't have a second peer review meeting, would it be possible to distribute this to the full group as soon as possible to solicit edits/comments?
Thanks very much.
—Michelle
Here is the list where it now stands. I want to finalize a list that we could give to the Secretary this afternoon. Please identify the proposals that raise serious problems so we can discuss, and also indicate if there are glaring omissions from the list. Thanks.

I suspect we'll talk more about this in the days and weeks ahead, especially as the Administration prepares to release its proposed legislation.

Chapter 8 (Increased production of U.S. Energy Resources).

Task Force Charlie: This can go out to other Agencies for review. Includes comments from meeting on 2/21.

DOE: FE took the pen and I edited and inserted new material from NE. Also selected the graphics from FE's menu of options. Graphics are a little thin toward the back of the chapter. Who can help?

EIA - please take a fact-check look.
