From: Friedrichs, Mark Sent: Monday, May 07, 2001 10:34 AM To: Memosgle, Joe; Kolevar, Kevin Subject: FW: bullets Importance: High This is the best we can do by 10:30; we will continue be working on a slightly expanded version, that will include macroeconomic impacts. Original Message From: MaryBeth Zimmerman Sent: Monday, May 07, 2001 10:24 AM To Friedrichs, Mark Subject: bullets Importance: High << File: 1 pg for W.H.doc >>

---

The recommendations' greater long-term impact will be presented in two weeks by the administration's energy task force, a Cabinet-level group headed by the vice president. A senior White House official said yesterday that the report will have five components. The most important, increasing supply, will leave its emphasis on fossil fuels and nuclear power by including a goal of tripling renewable fuels by 2020. There will be tax incentives for research and development in technologies related to solar, biomass, methane gas and other energy sources. Other components will be a 'modernizing conservation' section arguing for increasing energy efficiency through technology; modernizing infrastructure; enhancing the environment; and increasing energy security -- a combination of reducing reliance on foreign supply and keeping energy prices low and stable for low-income consumers. The task force is considering a number of conservation efforts, including tax incentives for the purchase of energy-efficient hybrid cars that run on gasoline and electricity and voluntary national targets for conserving energy, according to an administration source.

All, Joe has now received hard copies of chapters 4, 5, and 10 for our rev iew (the ones we didn't do). Sorry but I only had e-copies of 10, rest are h ard, so you have to stop by to collect. I'll put them on the PD 7C-034 open area credenza for pick up. Need your comments by Thursday COB - please e-mail me a comments page. I'll compile for Joe. Joe delivered our DOE led chapters 1, 2, 3, 6, 7, 8 and we will await comments. I'm working on c ollecting figures and charts. By my calculations, we are still missing chap ter 9 (DOR). The revised outline: chapter 1 -- energy supply and demand .overview chapter 2 -- "problems" chapter 3 -- "consumer impact" chapter 4 -- environmental considerations of energy development (EPA lead) chapter 5 -- economic impact (Treasury lead) chapter 6 -- "energy efficiency" chapter 7 -- development of renewable energy and alternative energy chapter 8 -- " increased production" chapter 9 -- infrastructure chapter 10 -- energy secu rity/international

Revised goal list. As we discussed, I am continuing to compile and order (by goal). E-me any more ideas. In WORD, please. I can't figure out how to get your file list of ideas to date, but you have the package with the original filenames as headers. If you rewrite one, just rename it so it will write over automatically when I save it. One file per idea is great but don't fret about it now - clearly, not all these ideas will move forward

Task Force Charlie: can you distribute to Task Force? DOE Offices: Attached in the latest Chapter 6 - energy efficiency (initially drafted by EE). Draft went through inter-agency review process and this is the result (many favorable comments, by the way). I think I addressed the comments from CEA, Treasury, EPA and the Task Force leaders. EE - can you add sources where I indicated? Please suggest some graphics to put in. A text box list our efficiency program would be helpful - where can I find such a thing? EIA - fact check? Please let me know if you are going to comment (specific text inserts, please). Soon. Margot

-- Original Message ---

All,  This is Commerce's wish list of Policy Options for the NEP.  Mark F. - can you coordinate a DOE response so we can get to Joe Kelliher?  By Wednesday COB?  Thanks.  Margot

NEP Status Report from DOE

Interim Report - sent TF EIA fact checks and DOE comments on DOI inserts (3/22) - waiting for input from NASEO (via Karen) to complete Chapter 4 - DOE is reviewing Chapter 5 - no pending actions from DOE Chapter 6 - out for interagency review (DOE is working on graphics).  Charlie - did you circulate this to TF members (sent to you 3/24)?  Chapter 7 - DOE will circulate today.  Chapter 8 - out for interagency review (DOE is working on graphics).  Charlie, did you circulate this to TF members (sent to you 3/25)?  Chapter 9 - provided DOT with 2 sets of edits (one last Friday, one yesterday on electricity)  Chapter 10 - DOE sent comment to TF 3/26 Policy Options - Kelliher is handling.  Please let me know if this is not consistent with your records.

MB, no pressure but...can I get a sense of what you will be providing and when?  Chapter 4 and Chapter 10 - is EE going to review?  Chapter 7 - your new version (you said you wanted time to review on weekend).  It needs to go into interagency review.  Please be sure to write captions for graphics, Chapter 6 - got your graphic and sent back to you all the chapter 6 graphics for a few changes plus captions.  Chapter 3 - I'll probably need some help today or tomorrow but let me see how far I get. Margot

Please let me know if I have the complete list. Joe K. - did you want me to add Kyle? Margot ---Original Message--- From: Anderson, Margot Sent: Friday, May 18, 2001 12:10 PM To: Haspel, Abe; Kripowicz, Robert; Magwood, William; KYDES, ANDY; Pump, DJ; each CC: Zimmerman, MaryBeth; Braitsch, Jay; Kelliher, Joseph; Kolevar, Kevin Subjects: who worked on the NEP? All, As part of the FOIA's underway on the NEP, I need to submit a list of everyone who worked on it. Please review and edit accordingly. If you could return by Monday, I would appreciate it. Thanks. Margot ---File: NEP people.xls>>

Attached is a draft response to your requests regarding EERE program activities and their relationship to the NEP recommendations. The lack of time available, and the multiple requests received, made it difficult to process this request. Much of this information should be revised and we will try to do that early next week. Please give me a call if you have any questions. I am at 6-249.

/2001 04:39:07 PM To: Wendy Butler/EE/O=DOE@HQMAIL CC: Public Affairs Request -- NEP Recommendations

Energy Plan Wendy et al. Thanks in advance for your help on this assignment. We are trying to go through all 100+ recommendations in the NEP and identify DOE programs and/or initiatives that already exist and are supportive of each initiative so we can promote the initiatives as they apply to the plan. For each one, please give a short description of the program, and include any helpful details (such as technological accomplishments) or budget figures. We don't need a lengthy description (3-4 sentences at the most - kind of like the descriptions in the Budget Highlights document) but do need enough plain English detail to explain it to lay people. We are hoping to complete this task for the entire department by CDB Friday; so would like to get as much information from the programs as possible by 1 p.m.
Friday. Call if there are any questions. I can be reached at 586-5806.
Many thanks, Lisa Cutler

Thanks, in return, for your efforts to pull everything together for us on the NEP. For our purposes, I've asked Tom Kimbis to go through the full report to identify any other errors/misprints (we've found a couple already). I wanted to let you know we are doing this in case you get any questions on these items. Will be glad to cc: you when we are done.
