Subject: FW: national energy strategy

Ed--You have the PO lead on the electricity section. Scott Sitzer of EIA is the co-lead.

Tracy--You have the PO lead on the macro section. They haven't indicated who the EIA co-lead is yet, but I would bet it's Ron.

Ed and Tracy you should get with your respective co-leads and figure out who will do what.

For the rest of PO-21, you now have all the information I have on the National Energy Strategy. I wish I could say I was holding something back, but there's nothing more. I am sure we have not heard the end of this by far.

Andy,

Here are as many of the citations as we could come up with after-the-fact. We could not find citations for all of them. If you need for us to continue to research them, please let me know.

Thanks,

Bob

Bob:

Can you or someone else in your group fact check items 69 - 86 on electricity. They need source/citations. The information is needed by 4 PM today. Thanks.

Jay and John,

I have now officially gone crazy. This just in from DOT asking for help on their infrastructure chapter. EIA sent in some citations yesterday but DOT needs more, specifically to §1, 3, 44-45, 69-86. I know longer know who wrote what. Can we help? 69-86 are on electricity.

Let each of us know (by responding to all) which questions you can do, so we don't duplicate effort.

Several of you were asking about chapter 5 (economic impacts).
Charlie,

Please send this around with this note (and let me know if you get this e-mail).

Attached is a revised chapter 3.

Margot

Chapter 3 March 27.doc

DOE -

EE - can you review (and supply sources if you have them)?
EIA - can you check to see if most up-to-date numbers are used?
All - if you have additional, useful examples with a citation, please submit. Suggestions for graphics to illustrate topics would be most helpful.

Margot

Andy,

I can't say that I've read these things but I did scan through and have the following.

If the comment starts with 'ok', then it's ok. If the comment starts with anything else, there is a potential disagreement.

I found nothing to comment on in three of the documents: sec7.doc, sec8.doc, and secreg.doc.

Joe and Kevin.

Abe and Jay.

After you look this over, please provide suggested input to me by COB tomorrow, Friday April 6th. As Margot directed, I will coordinate input to EPA. If this recommendation does go forward to principals for consideration next Wednesday, the earlier we provide input to EPA, the better chance we have of its inclusion.

Summary Notes: 4/5/01 EPA Meeting on NEP "One-Pager" on Permitting

Short meeting chaired by EPA. Reps of DOI, State, and OMB also attended, together with approx 12 EPA staff (mostly Air, but Fed Activities, Water, and Waste also represented). Beale attended for portion.
Joe,

Paul is sending some info separately, but here's some info on the treatment of federal facilities and the EPA guidance on use of emergency generators.
