Afghanistan  If you decide not to forward this, please send it to sarabande@brandeis.edu This is an actual petition, and "signatures" will be lost if you drop the line. It is outrageous....... as w th the destruction of ancient artifacts of other religions.... and of course, I signed. - M.  Dear Friends,  Please do not ignore this e-mail. This is something that we as women and essentially as human beings need to support - I don't know if this is going to help but take 3 minutes out of your life to do your part:

Since the Taliban took power in 1996, women have had to wear burqua and have been beaten and stoned in public for not having the proper attire, even if this means simply not having the mesh covering in front of their eyes.  One woman was beaten to death by an angry mob of fundamentalists for accidentally exposing her arm(s) while she was driving. Another was stoned to death for trying to leave the country with a man who was not a relative.  Women are not allowed to work or even go out in public without a male relative; professional women such as professors, translators, doctors, lawyers, artists and writers have been forced from their jobs and stuffed into their homes.  Homes where a woman is present must have their windows painted so that she can never be seen by outsiders.  They must wear silent shoes so that they are never heard.  Women live in fear of their lives for the slightest misbehavior. Because they cannot work, those without male relatives or husbands are either starving to death or begging on the street, even if they hold PhD's.  Depression is becoming so widespread that it has reached emergency levels.  There is no way in such an extreme Islamic society to know the suicide rate with certainty, but relief workers are estimating that the suicide rate among women must be extraordinarily high: those who cannot find proper medication and treatment for severe depression and would rather take their lives than live in such conditions. At one of the rare hospitals for women, a reporter found still, nearly lifeless bodies lying motionless on top of beds, wrapped in their burqua, unwilling to speak, eat, or do anything, but slowly wasting away. Others have gone mad and were seen crouched in corners, perpetually rocking or crying, most of them in fear.  When what little medication that is left finally runs out, one doctor is considering leaving these women in front of the president's residence as a form of protest. It is an understatement.  Husbands have the power of life and death over their women relatives, especially their wives, but an angry mob has just as much right to stone or beat a woman, often to death, for exposin...
DI o mail

Women enjoyed relative freedom to work, to dress generally as they wanted, and to drive and appear in public alone until only 1996. The rapidity of this transition is the main reason for the depression and suicide. Women who were once educators or doctors or simply used to basic human freedoms are now severely restricted and treated as subhuman in the name of right-wing fundamentalist Islam. It is not their tradition or "culture," but it is alien to them, and it is extreme even for those cultures where fundamentalism is the rule. Everyone has a right to a tolerable human existence, even if they are women in a Muslim country. If we can threaten military force in Kosovo the name of human rights for the sake of ethnic Albanians, citizens of the world can certainly express peaceful outrage at the oppression, murder and injustice committed against women by the Taliban.

STATEMENT: In signing this, we agree that the current treatment of women in Afghanistan is completely UNACCEPTABLE and deserves action by the United Nations and that the current situation overseas will not be tolerated. Women's Rights is not a small issue anywhere, and it is UNACCEPTABLE for women in 2000 to be treated as subhuman and as property. Equality and human decency is a Fundamental RIGHT, not a freedom + o be granted, whether one lives in Afghanistan or elsewhere.

well, to leave you ever more confused, the e-mail I sent out a few minutes ago has an old version of the outline. This is the newer version, and the one you should use. My apologies for the confusion. Michael

Jerry - I presume you received the email that MB refers to below. Thanks for spearheading this for BTS. Please use your terrific judgment as to whether or not you think we need to take MB up on her offer to meet. -- Mary Beth (6-7249) ------------------ Forwarded by Barbara Sisson/EE/DOE on 03/01/2001 05:19 PM --

Margot Anderson@DOE on 03/01/2001 07:14:14 AM To: Mary Beth Zimmerman/EE/DOE@DOE, John Sullivan/EE/DOE@DOE, Abe Haspel/EE/DOE@DOE, Buddy Garland/EE/DOE@DOE; Subject: Energy Policy Discussion

Message body

The Energy Policy Discussion All, on Monday at 1:00, we will be meeting in room 78-040 to begin the discussion of energy policy options for the national energy policy (phase 2 of our efforts). Joe will be sending a new national energy policy document to the discussion list on Monday.

MaryBeth, Please check with Buddy ... we are all tied up with a FY02 must do budget exercise. Perhaps Abe or John can intervene to get more time on NER. CFO and Policy need to find a way to accommodate each other on deadlines - it's mostly the same people who are trying to do both, as it ought to be. Jerry

This replaces the draft for new sections I & II you received late yesterday. 1. Please review this draft ASAP per Margo Anderson's request below. 2. Please provide Darrell Beschen with any regional information that might be helpful for a chapter on regional energy issues. Everything is due to the White House today. We will be meeting with Margo Anderson at 11:30 today, and may get further instructions at that time. We may also be sending out subsequent drafts for quick comment, if possible.

Thanks.
