All,

Chapter 9 is back from DOT.

Crystal - still no luck getting through to Jeff but we much need a BPA review. Can you help?

Thanks,

Margot

Attached are revised outline on "Supply Disruptions" and input on "Increased Production of Traditional Energy Resources".

Let me know if we can help.
At the request of Joe Kellner, we will be meeting at 3:30 today to go over the status of the summer electricity assessment report. PO will have a draft ready based on your contributions. As you are the points of contact and major contributors, it would be helpful to have you attend the meeting. I will confirm a meeting room later today.

All,

Recapping: DOE has 2-page outline development lead on:

- Short-term Energy Supply Disruptions: (PO with EIA & SO: comment on Joe's outline)
- Protection for Consumers and Low-Income Families (EE with PO assist)
- Development of Alternative and Renewable Energy Resources and Conservation and Increased Energy Efficiency (EE with PO assist)
- Increased Production of Traditional Energy Resources (PO, FE, and EIA)

As all outlines are developed, more offices will be involved.

Jay - this might be all greek to you - give me a call on Monday and I'll fill you in.

Outlines due by 3:00 Monday, Feb 12. Let's regroup on Monday morning for coordination if necessary. Have a good weekend.
