Margot/Joe,
Here's the new draft of Chapter 9. Wanted to get it to you ahead of the rest of the crew, since I'm requesting energy info from DOE.
Look for brackets to identify places where I've identified needs for info.
Thanks a million.

Subject: New Chapter 9 from DOT

Per last week's discussion, here's a new draft of Chapter 9 from DOT. I am still working with DOE to get electricity info and will add that ASAP.
Charlie, since I didn't have a second peer review meeting, would it be possible to distribute this to the full group as soon as possible to solicit edits/comments?
Thanks very much.

Subject: Your email to Secretary Abraham

Ms. Laura Blue
10489 810th Avenue
Granite Falls, MN 56241

Dear Ms. Blue:

Thank you for your email message to Secretary Abraham dated April 2, 2001 expressing your views regarding renewable energy resources. Your message has been forwarded to my office, the Office of Biopower and Hydropower Technologies, for a response.

In your message, you suggest that the President is not considering any form of renewable energy as long term planning. As you may already be aware, President Bush has created an Energy Task Force headed by Vice President Cheney. The purpose of this task force is to "define a clear strategy that will allow environmentally responsible exploration and recovery of our domestic resources, enhance our commitment to conservation and energy efficiency, and encourage investment in new technology to further the development of renewable energy sources." At this point, the task force is still developing an energy plan and is considering all options.

You also mention in your message that there must be a way to use the domestic and industrial waste generated by our society. Currently, there are more than 130 Waste-to-Energy Facilities in operation in the United States. These facilities utilize municipal solid waste (MSW) to produce electricity. In addition, there are approximately 270 landfills in commercial operation in the U.S. that convert landfill gas to energy. Furthermore, the Biopower Program is looking at agricultural waste and other forms of biomass as fuel sources in biomass-fired power plants.

The Department of Energy's Energy Efficiency and Renewable Energy web page can provide you with additional information on biopower, solar power, and other renewable energy technologies, and can be located at http://www.eren.doe.gov/. Thank you for your interest in renewable energy resources.

Sincerely,

Dr. Raymond Costello
Program Manager
Office of Biopower and Hydropower Technologies

Subject: Response to your e-mail of February 26 concerning U.S. Energy Policy
Development

Dear Mr. Tzeferakos:

First, I would like to apologize for the long delay in responding. The Department of Energy has
been receiving thousands of e-mails in recent months, and we are still trying to catch up.

I suspect that you have been following the work of Vice President Cheney's Energy Policy
Development Group through the media. The only statements released regarding the
Administration's new energy policy have been well reported in the press. The most detailed was
Vice President Cheney's recent speech in Toronto.

It is our understanding there will be a substantial document released shortly, almost certainly
during May. I am sure that the media and various U.S. government webpages, including the
Department of Energy's (energy.gov), will immediately disseminate this document and any
related announcements, as well as summary information.

I hope this is helpful.

Sincerely,

Mark D. Friedrichs (PO-2)

Margot, can I borrow John Conti to help on an urgent project for S1? I'll drop it down if Margot has no objections. Thanks.

John, please come.
Margot -

In case Trevor never responded, PD-13 is really PDD-13 (Presidential Decision Directive).

The Federation of American Scientists says:

"The Presidential Review Directive (PRD) series is the mechanism used by the Clinton Administration to direct that specific reviews and analyses be undertaken by the departments and agencies. The Presidential Decision Directive (PDD) series is used to promulgate Presidential decisions on national security matters."

PDD 13 is Non-Proliferation and Export Control Policy

Subject: meetings

Hopefully, my last question. Was there a working group meeting on 3/6? I have an email from John Fenzel to that effect, but nothing on my calendar.
A few more -- was there a meeting on March 9? I have it on my schedule but don't think I went -- it was the day I went to Mexico with the Secy.

How about 4/3? It is not on my schedule, but I have a 3/22 email from Fenzel indicating there was such a meeting.

How about 4/23 and 4/24? On both days I have a 4:30 meeting scheduled at the OEOB titled "Energy Task Force Report." Do you have meetings listed on those days?

Attached is information on the Federal Inspector, including the reorganization plan you requested. If you need hard copy, I can provide it.

[Image: kelliher-reorg]

Bob
Lee, Doug,

Per EPA staff at RTP this afternoon:

1.) They are unlikely to forward the draft background piece before late Monday afternoon. The deadline for comments will remain COB Wednesday.

In order to have time for any necessary consolidation and clearance of DOE comments, staff could have less than 36 hours to comment. "Forewarned is forearmed."

2.) They understood that Stephanie Delgado on Tom Gibson's staff is in the process of sending some written material (scheduling, etc.?) to Lee.

Lee, I would appreciate receiving copies of whatever they send.

Jean
Subject: National Energy Strategy

Joe,

Please don't forget to send your outline before you take off this evening. I'll get it around to the group.

All,

At the request of Joe Kelliher, we will be meeting at 3:30 today to go over the status of the summer electricity assessment report. PO will have a draft ready based on your contributions. As you are the points of contact and major contributors, it would be helpful to have you attend the meeting. I will confirm a meeting room later today.

Subject: How many copies of the report do you need?

As we get closer to printing this thing, I need to know how many copies of the report each agency needs and to whom you want them to go and where (address including room #).

Let me know by COB Thursday, May 3, 2001.

Thanks

Charlie
DOE just received a request from the WH to provide sources for over 450 facts in the NEP (yes, I know - we argued to include references on day 1). By 5:00 today, I have just asked the WH to reconsider the deadline and to send the most recent drafts (all I have are the fact-checked versions I sent in this week, which I know have been revised at the WH). WH will not be sending us the latest draft so we have to use the latest version I have. We need a brief coordination meeting at 3:00 today to figure out where we are going to do this. I'll photocopy everything I'll have and hand it out then.

Let me know if you can attend this meeting.
